

# **CORTON GRAND CRU**

**2011**

**François PARENT**  
**[www.francoisparent.fr](http://www.francoisparent.fr)**

Situated to the North of the Côte de Beaune, the "Corton Mountain" is topped by a wood.

Here the chalk soils appear to be the most suitable for white wines. This Grand Cru golden in colour, is very fruity with pears and pineapple tones. These exotic fruits explode from the glass. The palette is ample and rich, and already you can find from the grape juice these characteristics of a Grand Cru.
